

E-SAFETY WORKSHOP

for Parents and Teachers

Some Facts

- 43% of children have been victims of cyber bullying.
- 79% of cyber bullying cases escalate to higher levels of harassment.
- 49% of children have received an inappropriate text or picture on their cell phone.
- Increasing numbers of child predators are hunting for victims in online games and gaming forums.

In real life you would protect your children....
SO WHY NOT PROTECT THEM
on the Internet

As with all other risks, it is impossible to eliminate above-mentioned risks. It is therefore essential for us to aware and make capable to respond wisely towards the risks to which our child may be exposed. So, it's our major responsibility to build the confidence and skills in young people to face and deal with these risks.

The Reality

Many parents and guardians have only a limited understanding of e-safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line experiences. Parents often either underestimate or do not realize how often children and young people come across potentially harmful and inappropriate material on the internet and are often unsure about what they would do about it.

"How can I be as good a parent **ONLINE** as I am **OFFLINE** ?"

Participate in our 1-day Workshop

Highlights

- Identify the role of Parents
